| Beneficial Ownership is a requirement from the Financial Crimes Enforcement Network (FinCEN), under the Bank Secrecy Act, which mandates all covered financial institutions collect and verify from certain non-exempt legal entities specific information about the beneficial owners of the entity at the time a new account is opened. The intent of the Beneficial Ownership Rule is to assist authorities in counteracting money laundering, tax evasion, and other financial crimes. The ownership prong is an individual or entity, who, directly or indirectly, through any contract, arrangement, understanding, relationship or otherwise, owns 25 percent or more of the equity interests of a legal entity. The control prong of beneficial ownership represents a single individual with significant responsibility to control, manage or direct a legal entity customer. |                |                                                                                        |                                                                               |                                                                                        |                    |
